Discourse Classic Reprint Philip Tappan:

Untimely Ruins Nick Yablon, 2010-06-15 American ruins have become increasingly prominent whether in discussions of urban blight and home foreclosures in commemorations of 9 11 or in postapocalyptic movies In this highly original book Nick Yablon argues that the association between American cities and ruins dates back to a much earlier period in the nation s history Recovering numerous scenes of urban desolation from failed banks abandoned towns and dilapidated tenements to the crumbling skyscrapers and bridges envisioned in science fiction and cartoons Untimely Ruins challenges the myth that ruins were absent or insignificant objects in nineteenth century America The first book to document an American cult of the ruin Untimely Ruins traces its deviations as well as derivations from European conventions Unlike classical and Gothic ruins which decayed gracefully over centuries and inspired philosophical meditations about the fate of civilizations America s ruins were often untimely appearing unpredictably and disappearing before they could accrue an aura of age As modern ruins of steel and iron they stimulated critical reflections about contemporary cities and the unfamiliar kinds of experience they enabled Unearthing evocative sources everywhere from the archives of amateur photographers to the contents of time capsules Untimely Ruins exposes crucial debates about the economic technological and cultural transformations known as urban modernity The result is a fascinating cultural history that uncovers fresh perspectives on the American city [Guide to Reprints](#), 2009 [A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942](#), 1942

Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979 [Capital of Mind](#) Adam R. Nelson, 2024-01-02 The second volume of an ambitious new economic history of American higher education Capital of Mind is the second volume in a breathtakingly ambitious new economic history of American higher education Picking up from the first volume Exchange of Ideas Adam R Nelson looks at the early decades of the nineteenth century explaining how the idea of the modern university arose from a set of institutional and ideological reforms designed to foster the mass production and mass consumption of knowledge This industrialization of ideas mirrored the industrialization of the American economy and catered to the demands of a new industrial middle class for practical and professional education From Harvard in the north to the University of Virginia in the south new experiments with the idea of a university elicited intense debate about the role of scholarship in national development and international competition and whether higher education should be supported by public funds especially in periods of fiscal austerity The history of capitalism and the history of the university Nelson reveals are intimately intertwined which raises a host of important questions that remain salient today How do we understand knowledge and education as commercial goods Should they be public or private Who should pay for them And fundamentally what is the optimal system of higher education for a capitalist democracy **Contributions of Selected Rhetorical Devices to a Biblical Theology of The Song of Songs** Mark McGinniss, 2011-03-07 Scan any Old Testament Theology for its entry concerning the Song of Songs and you are likely

to put the book down and walk away disappointed In the majority of resrouces the Song is either missing entirely or is given scant pages that do not justice to its divine message In this book Mark McGinniss seeks to remedy that situation by demonstrating the depth of theology in this ancient love song concerning desire passion and sex Beyond the significant theology of the Song this book demonstrates how the author of the Song of Songs employed certain literary devices for a specific rhetorical purpose to convey certain theological truths **Religious Books 1876-1982** ,1983 **Bibliography of American Imprints to 1901: Place index** ,1993 *Guide to Microforms in Print* ,2002 **The Publisher** ,1911

Kimball,1995 In this prize winning book Bruce Kimball provides a cogent study of the historical evolution of the idea of liberal education Clearly and forcefully argued the book portrays this evolution as a struggle between two contending points of view one oratorical and the other philosophical that have interacted often controversially from antiquity to the present *The Publishers' Circular and Booksellers' Record* ,1911 **The United States Catalog** ,1904 *Bibliography of American Imprints to 1901: Subject index* ,1993 *Strangers & Pilgrims* Catherine A.
