Discovering Grammar Anne C. Lobeck, Max Morenberg, 2000 This textbook for college courses in advanced grammar structures of English English syntax and introduction to English language is written for the general student **Linguistics for Everyone: An Introduction** Kristin Denham, Anne Lobeck, 2009-03-06 LINGUISTICS FOR EVERYONE AN INTRODUCTION First Edition is designed to capture the interest of all students regardless of major and offer them a thorough engaging introduction to the science of language To achieve this goal they devised a unique arrangement of chapters that distinguishes this book from conventional introductory linguistics textbooks Without sacrificing rigor they focus on larger themes rather than on technical details or formal analysis The book opens with a strong introductory chapter addressing basics such as how to define language prescriptive versus descriptive grammar differences between the human language system and other animal communication systems and so on The second chapter devoted to language mind and brain addresses both psycholinguistic and neurolinguistic evidence for humans innate capacity for language To address core linguistics areas in depth there are two chapters each on phonetics and phonology morphology syntax and semantics Throughout the text special features relate the study of linguistics to the language we use in the real world and every chapter includes innovative and varied activities that review and practice the content and offer your students many opportunities to apply the knowledge in their own lives Important Notice Media content referenced within the product description or the product text may not be available in the ebook version **Understanding Syntax 2nd Edition** Maggie Tallerman, 2014-03-18 Assuming no prior knowledge of linguistics it discusses and illustrates all the major terms and concepts essential to the study of sentence structure in the world s languages Noun and verb are explained and the properties of these categories are discussed The reader discovers what a finite verb is what first person singular means and what relative clauses look like Concepts such as subject object gender case and subordination are introduced and exemplified Initial illustration is from English with extensive additional material from several other languages Exotic constructions not found in related European languages are fully covered so that verb serialization ergative languages and head marking languages are all included This new edition has been updated and revised to meet the needs of today s students Difficult points are given fuller explanation a glossary of technical terms is included and additional exercises have been introduced to enable students to consolidate what they have learnt **Syntax** Andrew Carnie, 2012-08-20 Andrew Carnie s bestselling textbook on syntax has guided thousands of students through the discipline of theoretical syntax retaining its popularity due to its combination of straightforward language comprehensive coverage and numerous exercises In this third edition topics have been updated new exercises added and the online resources have been expanded Supported by expanded online student and instructor resources including extra chapters on HPSG LFG and time saving materials for lecturers including problem sets PowerPoint slides and an instructors manual Features new chapters on ellipsis auxiliaries

and non configurational languages Covers topics including phrase structure the lexicon Case theory movement covert movement locality conditions VP shells and control Accompanied by a new optional workbook available separately of sample problem sets which are designed to give students greater experience of analyzing syntactic structure Working with Words Miguel Fuster Márquez,2011-11-28 Aquest volum intenta oferir als estudiants matriculats en el Grau d Estudis Anglesos un manual de base que els introdu sça en l estudi de les principals mat ries Un manual amb materials pr ctics de treball i continguts que responen a les necessitats d una cont nua actualitzaci de l ensenyament de lleng es estrangeres en una perspectiva emp rica i te rica i que al mateix temps recull i integra els principals corrents cient fics dels estudis anglesos tenint en compte les directrius introdu des per l Espai Europeu d Educaci Superior La novetat d aquest manual resideix a oferir a la xarxa i a la disposici de qualsevol usuari informaci relacionada amb el contingut del llibre textos exercicis autocorrectius i activitats Un espai que convida els usuaris a participar enviant les seves propostes per a publicar les i poder les compartir **Modern Syntax** Andrew Carnie,2011-01-13 This practical coursebook introduces all the basics of modern syntactic analysis in a simple step by step fashion Each unit is constructed so that the reader discovers new ideas formulates hypotheses and practises fundamentals The reader is presented with short sections of explanation with examples followed by practice exercises Feedback and comment sections follow to enable students to monitor their progress No previous background in syntax is assumed Students move through all the key topics in the field including features rules of combination and displacement empty categories and subcategorization The theoretical perspective in this work is unique drawing together the best ideas from three major syntactic frameworks minimalism HPSG and LFG Students using this book will learn fundamentals in such a way that they can easily go on to pursue further study in any of these frameworks *Journal of Linguistics* ,2017 The British National Bibliography Arthur James Wells,2001 **A Treatise on the Grammar of New Testament Greek** Georg Benedikt Winer,1870 **American Book Publishing Record** R.R. Bowker Company,1978

**Navigating English Grammar** Anne Lobeck,Kristin Denham,2024-12-09 Enables students to understand their assumptions and beliefs about the language they use every day In Navigating English Grammar Anne Lobeck and Kristin Denham offer an engaging introduction to the linguistic study of the structure of English Teaching basic grammatical analysis through inquiry rather than memorization this popular textbook encourages students to use their intuitive knowledge of language to make their own discoveries about the grammatical categories add principles of the grammar of English The book strikes a balance between basic descriptive grammar and syntactic theory introducing students not only to the structure of English but also in some cases to why English has the structure it does Along the way students discover how English has changed over time and how it varies from speech community to speech community Student friendly chapters contain numerous examples drawn from different varieties of American English which illustrate how English grammar is a dynamic system perceptions of one variety as better or more correct than another and notions of standard and non standard

English are socially constructed rather than based on linguistic fact This edition is fully updated with new examples new text excerpts from a diverse range of written genres and authors and completely revised chapters and exercises The book also includes an entirely new final capstone chapter designed to encourage students to apply what they have learned with more challenging practice exercises Navigating English Grammar A Guide to Analyzing Real Language Second Edition is an excellent textbook for undergraduate courses in English grammar English linguistics and language education
