Dino Park After Dark:

Animals and Science Fiction Nora Castle, Giulia Champion, 2024-03-22 *Animals and Science Fiction* is the first edited collection to be published focusing on the intersection of animal studies and science fiction studies. It offers a broad range of theoretical approaches and primary source texts including novels, short stories, poetry, film, and TV, photography, erotica, video games, and urban planning documents that explore the ways works of science fiction can transform how we see and interact with nonhuman others. With an eye toward more just multispecies futures, it argues that speculative imaginaries can be pivotal in changing attitudes toward and understandings of nonhuman animals in our world today. Chapters appeal to those interested in biopolitics, posthumanism, new materialism, ecocriticism, and the environmental humanities, ocean humanities, postcolonial studies, critical race studies, Indigenous studies, global sf studies, film studies, and food studies. Taken together, the collection works to showcase a diverse and growing field of scholarly inquiry into animals and science fiction. Lonely Planet Dubai & Abu Dhabi Lonely Planet Global Limited, 2024-05 Lonely Planet's local travel experts reveal all you need to know to plan a multi-week adventure to Dubai Abu Dhabi.
