Managing the ordering of supplies to the construction site

Ordering of temporary services

It refers to acquiring of temporary services at the construction site in order to completion of construction project. Thus, the major Metharom construction needs to make focus over ordering of temporary services that is concerned with the resources such as, temporary lighting, temporary power and water (Hasmori and et.al., 2020). These are the temporary services that are highly required in terms of managing construction process. The major motive is to make sure that these services are supplied a consistent form at construction site.

Equipment hire

The requirement of the project has to be known by the company afterwards, the mandatory machines that are needed has to be identified. The current condition of the machine has to be evaluated and then, the cost has to be measure. Moreover, transportation of machines needs to be decided and then it has to be installed.

Equipment maintenance

The major steps of equipment maintenance that needs to be performed by Metharom construction are:

- Managing operational records
- Ensuring regular cleaning
- Recording the fluid level
- Performance of daily lubrication
- Protection over electrical Wiring
- Reviewing the tire and excel conditions
- Inspecting the leakages

The above mentioned steps helps in management of the equipments at the site. Furthermore, it provides the assurance of keeping equipments updates (Li and et.al., 2018).

Review date and explanation of the ways in which document will be reviewed

Project quality management in construction has been comprised with the policies and procedures that has been taken in consideration by the company in terms of delivering effective outcomes to the customers. Also, it helps in performing the monitoring at the site that assures
