Executive-legislative (Im)balance in the European Union Diane Fromage, Anna Herranz-Surrallés, 2021-02-11 Ten years after the entry into force of the Lisbon Treaty has executive predominance in EU related matters disappeared How have executive legislative relations in the EU evolved over a crisis ridden decade from the financial and migration crises to Brexit and the COVID 19 pandemic The Lisbon Treaty could be expected to lead to the re balancing of powers in favour of parliaments for it significantly enhanced the roles of both the European Parliament and national parliaments A decade later the contributions to this edited volume examine for the first time in such an extensive breadth and from a multi level and cross policy perspective whether this has actually materialised They highlight that diverging tendencies may be observed and that important variations over time have occurred depending particularly on the occurrence of crises As stated in the fascinating epilogue by Peter Lindseth University of Connecticut School of Law this is an admirably coherent collective volume whose contributions provide an excellent overview of key aspects of executive legislative relations in the European system since the Treaty of Lisbon This edited volume will hence be of interest to both academics and practitioners interested in future reforms designed at the European and national levels to improve the EU s democratic quality **The Member**

States of the European Union Simon Bulmer, Christian Lequesne, 2020 A unique overview of Europeanization which combines a thematic and country by country approach to understanding the relationship between member states and the EU

The French Parliament and the European Union Olivier Rozenberg, 2019-07-12 This book explores how the European Union has changed the French Parliament since 1992 It supports the view that the institutional adaptation of both assemblies to European affairs is largely superficial as it lacks a genuine involvement from members of parliament Nevertheless the role of backbenchers has changed in the context of European integration New ways of behaving thinking and representing have emerged From specialized representatives to constituency members from presidential aspirants to Eurosceptic sovereigntists French national parliamentarians have adapted differently to the EU Far beyond the sole scrutiny of European draft legislation the book provides a comprehensive map of this changing environment It supports the view that the process has been driven by the search for day to day emotional gratifications rather than utilitarian strategies *Questions européennes*

essentielles pour notre avenir tous que l'on trouvera analysés dans cet ouvrage *Questions européennes 2020-2021 - Cours et QCM* Christophe Lescot, 2019-09-10 L'Union européenne est désormais installée au cœur de la vie politique économique et sociale des États. Il n'y a guère d'aspects de la vie quotidienne des citoyens qui ne se trouvent sous l'emprise du droit communautaire. Mais cette construction européenne reste mal connue. Le système institutionnel européen apparaît comme opaque et peu démocratique, alors qu'il obéit des principes de gouvernance qui lui sont propres. Le sens du projet européen n'est plus aussi facile à discerner maintenant que le grand marché et la monnaie unique sont sur les rails. C'est l'hellé européenne que se posent les questions essentielles qui dépassent le cadre des États-nations. Comment équilibrer l'ouverture des marchés par la protection des équilibres territoriaux et la préservation de services d'intérêt général ? La libéralisation des changes est-elle possible sans dumping social au détriment des salariés ? Comment créer à partir de l'euro les conditions d'une meilleure intégration économique et budgétaire ? L'Europe doit-elle s'ouvrir à l'immigration économique ou fermer ses frontières ? Faut-il fixer des frontières un ensemble politique en expansion constante depuis ces dernières années ? Telles sont quelques-unes des questions essentielles pour notre avenir tous que l'on trouvera analysés dans cet ouvrage.

Elle examine ensuite les pistes de simplification des outils de transposition et leurs modalités de mise en œuvre. Elle préconise enfin une meilleure anticipation des enjeux de l'ouverture des négociations au sein de l'Union européenne. Suivent trente propositions en ce sens.

Directives européennes : anticiper pour mieux transposer Conseil d'Etat, 2015-11-27 L'insertion des directives européennes dans le droit national constitue pour la France une obligation et un défi sous la contrainte des exigences de transposition complète, claire, précise et transparente issues de la jurisprudence de la Cour de justice de l'Union européenne. Dans cette perspective le Conseil d'État explore les moyens pour renforcer l'efficacité et la rapidité des processus de transposition des directives en particulier lorsque des mesures législatives sont nécessaires. La présente étude dresse un état des lieux des pratiques et des performances de la France ainsi que des nouveaux défis relever pour assurer dans les délais fixés la transposition des directives en droit français. Elle examine ensuite les pistes de simplification des outils de transposition et leurs modalités de mise en œuvre. Elle préconise enfin une meilleure anticipation des enjeux de l'ouverture des négociations au sein de l'Union européenne. Elle fait en ce sens trente propositions.
