Dirt New Geographies Of Cleanliness And Contamination:

Dirt Ben Campkin, Rosie Cox, 2007-12-19 Addresses the themes of dirt and cleanliness in relation to domestic urban and rural space Dirt is considered at a theoretical level but also as that which slips easily between concept matter experience and metaphor P 1 *Dirt* Ben Campkin, Rosie Cox, 2012 **Dirty Theory** Hélène Frichot, 2019-10-25 Dirty theory follows the

dirt of material and conceptual relations from the midst of complex milieus It messes with mixed disciplines showing up in ethnography in geography in philosophy and discovering a suitable habitat in architecture design and the creative arts Dirty theory disrupts a comfortable status quo including our everyday modes of inhabitation and our habits of thinking This small book argues that we must work with the dirt to develop an ethics of care and maintenance for our precarious environment worlds *Waste as a Critique*, 2025-02-11 Waste as a Critique reveals how waste in its manifold variety provides an

innovative starting point for interrogating 21st century society Drawing on growing interdisciplinary concerns for discards it contextualizes waste in cultural symbolic historical spatial and political forms The contributions presented demonstrate the potential for waste as a revelatory lens through which the social world may be critically re examined and assessed This collection informs a novel critical waste based epistemology from which to challenge ingrained assumptions categorical inconsistencies and unconsidered outcomes in social practice and theory This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations *Work, Labour and Cleaning* Singha, Lotika, 2019-07-24 The

outsourcing of domestic work in the UK has been steadily rising since the 1970s but there has been little research into White British women who work as independent providers of cleaning services Work Labour and Cleaning is a cross cultural analysis based on new research into two particular social contexts one in the UK and one in India It argues that outsourced domestic cleaning can be undertaken either as work using mental and manual skills or as labour usually defined as unskilled natural women's work depending on the social context and working conditions in which it occurs The book challenges feminist dogma and popular myths about housework [Latin American Popular Culture](#) Elia Geoffrey Kantaris, Rory O'Bryen, 2013

Explores a wide range of cultural phenomena to examine both national symbolic orders and national global tensions resulting from a climate of conflicting economic and political ideologies **Remaking London** Ben Campkin, 2013-08-13 Between the

slum clearances of the early twentieth century and debates about the post Olympic city the drive to regenerate London has intensified Yet today with a focus on increasing land values regeneration schemes purporting to foster diverse and creative new neighbourhoods typically displace precisely the qualities activities and communities they claim to support In Remaking London Ben Campkin provides a lucid and stimulating historical account of urban regeneration exploring how decline and renewal have been imagined and realised at different scales Focussing on present day regeneration areas that have been key to the capital's modern identity Campkin explores how these places have been stigmatised through identification with

material degradation and spatial and social disorder Drawing on diverse sources including journalism photography cinema theatre architectural design advertising and television he illuminates how ideas of decline drive urban change *Urban Captivity Narratives* Heather Hillsburg,2019-07-30 Evolving from a rigorous study of post 9 11 women s writing Dr Heather Hillsburg s new monograph identifies an emerging genre which she names Urban Captivity Narratives Using examples ranging from memoir to young adult fiction each of the texts examined in the study follows a female protagonist who has survived abduction been held captive for months or even years and subjected to sexual emotional and physical abuse by their captor Hillsburg contextualizes these narratives and takes into consideration our current political atmosphere the role of patriarchy and various social anxieties that come into play when discussing the kind of oppression seen in these narratives

Metagraffiti Chandra Morrison Ariyo,2024-12-13 Focusing on graffiti scenes from S o Paulo and Santiago in Chile this innovative visual ethnography examines diverse forms of self reference and metareference that appear in Latin American graffiti art Chandra Morrison Ariyo works across multiple scales of contemporary graffiti production from tags to massive murals to show how painting the city enables individuals to reimagine their own position within the material and social structures around them Metagraffiti reveals how practitioners such as Tinho OSGEMEOS Grin and Bisy use metagraffiti features to influence public perceptions about this art form and its effect on the urban environment Ultimately Metagraffiti proposes a novel conceptual framework that highlights graffiti s ability to forge alternative forms of movement sociality and value within Latin American cityscapes These urban images invite us to imagine what the city could be when seen as a site for action and imagination **White Identities** Simon Clarke,Steve Garner,2010-02-15 The study of white ethnicities is becoming increasingly important in the social sciences This book provides a critical introduction to the topic Whiteness has traditionally been seen as ethnically transparent the marker against which other ethnicities are measured This analysis is clearly incorrect but only recently have many race and ethnicity scholars moved away from focusing on ethnic minorities and instead oriented their studies around the construction of white identities Simon Clarke and Steve Garner s book is designed to guide students as they explore how white identities are forged using both sociological and psycho social ideas Including an excellent survey of the existing literature and original research from the UK this book will be an invaluable guide for sociology students taking modules in race and ethnicity *Environment & Planning* ,2010-05 [Book Review Index - 2009 Cumulation](#) Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Redefining Safety in Public Space* Ilaria Salvadori,2000 **Remaking London** Ben

Campkin,2013-10-31 Contemporary urban regeneration seeks to encourage diverse creative new neighborhoods that are rich in economic potential Yet the end result frequently displaces precisely those qualities activities and communities it claims to engender Are people best served by a preoccupation with regeneration as economic growth In Remaking London Ben Campkin provides a lucid and wide ranging critique of contemporary regeneration Focusing on present day regeneration areas in London that are key to the capital s modern identity including the site of the 2012 Olympics the result is both a compelling account of contested sites within the capital s recent history and a powerful critique of modern methods of urban regeneration

Queer Premises Ben Campkin,2019-06-15

Au Pairs' Lives in Global Context R. Cox,2014-11-27 Far from being the preserve of middle class women from Northern Europe au pairing is now booming worldwide This collection the first dedicated entirely to examining the lives of au pairs traces their experiences across five continents showing how this form of domestic labour and childcare is thriving in the twenty first century

As an Equal? Rosie Cox,Nicky Busch,2018-11-15 Au pairs are relied upon by tens of thousands of UK families to do everything from childcare and housework to elder care pet feeding and waiting at dinner parties Traditionally thought of as privileged and well educated young women having fun on a gap year abroad au pairs have been excluded from many of the recent discussions on migrant domestic labour However since 2008 au pairing has been effectively unregulated in the UK and the result is that au pairs now constitute one of the poorest paid and least protected groups of workers Through an examination of lived experiences As an Equal draws on detailed research to examine au pairs and the families who host them in contemporary Britain revealing au pairing to have become increasingly indistinguishable from other forms of domestic labour Crucially hosting an au pair is shown to form part of families attempts to provide good enough childcare in the context of extended working hours and poor public childcare provision This increased reliance of families on an exploited workforce is shown to form part of the wider political climate of economic austerity and raises profound questions about the position of women within the neoliberal economy

The Servant Problem Rosie Cox,2006-01-27 There are now more servants in Britain than in Victorian times This explosion in paid domestic employment is part of a global trend Women from countries such as the Philippines take on domestic jobs in order to support families at home whilst students from Eastern Europe the EU and Brazil work as au pairs in order to study English and improve their employment prospects Rosie Cox s timely new work examines the reality of paid domestic labour in Britain today and explores the global trends that sustain this growth of domestic employment She shows how the economy depends on women working outside the home how it is the employment of domestic workers that helps make this possible and examines the experiences of both employers and employees who have joined this new global labour market

Dirt Terence McLaughlin,2021-03-15 Delve Into the Fascinating World of Dirt Dirt is a matter of opinion according to public health and hygiene authority Terence McLaughlin In this engaging thoroughly researched and often humorous study of the imperfections of human existence and our relationship to them McLaughlin dissects human attitudes

about the slime mud stench and filth which has accompanied society through history Our notion of cleanliness has a marked cultural aspect For instance McLaughlin cites Old Testament examples of cleanliness which unbeknownst at the time helped protect observant followers from the plague The famous baths of ancient Rome were seen as progress for personal hygiene and later scorned by Christians who rejected all things Roman McLaughlin recites a long litany of examples of how we accept or reject substances exploring why we dislike sensations such as stickiness and sliminess Cultural attitudes about everything from factory smoke to personal hygiene are constantly shifting with the economic and political exigencies of the era In this age of pandemic viruses there has never been a more important time to observe how people think about the possible contaminants around us Dirt is a key resource for anyone wishing to understand humanity's role in shaping our environment

Reconnecting Consumers, Producers and Food Moya Kneafsey, Rosie Cox, Lewis Holloway, Elizabeth Dowler, Laura Venn, Helena Tuomainen, 2008-10-01 Reconnecting Consumers Producers and Food presents a detailed and empirically grounded analysis of alternatives to current models of food provision The book offers insights into the identities motives and practices of individuals engaged in reconnecting producers consumers and food Arguing for a critical revaluation of the meanings of choice and convenience Reconnecting Consumers Producers and Food provides evidence to support the construction of a more sustainable and equitable food system which is built on the relationships between people communities and their environments
