Gower Handbook of Discrimination at Work Hazel Conley, 2016-04-29 Workplace discrimination is an experience that despite four decades of equality legislation continues to blight the lives of thousands every year. Discrimination persists on the protected grounds of sex race disability age sexual orientation religion or belief and gender reassignment as well as where no legal protection exists such as in relation to class background or migration status. The Handbook discusses recent changes in equality legislation as well as considering the limitations of legal frameworks in addressing inequality. However, complying with the law is only the first step towards addressing discrimination in the workplace and the book goes beyond the law and provides evidence of good practice in promoting organisational culture change as well as considering future directions for policy on equality action. The Gower Handbook of Discrimination at Work looks at both social justice and business case perspectives and its message is not a negative one. The contributors have considerable depth of understanding of workplace discrimination both as academics and equality practitioners; their work has contributed to policy formation and all are committed to improving the lives of people at work. They offer insights into existing international developments and make suggestions for the ways in which positive change can be realised. Practitioners such as human resources professionals and other managers involved in addressing equality at work, trade unionists, equality trainers and academics concerned with researching or teaching in the areas of employment and equality will all find this book of interest. Furthermore, it will be of value to students in the fields of business and management, employment law, equality and diversity and human resource management.

Equal Employment of Persons with Disabilities John Parry, 2011 This book provides employers with sound business reasons for hiring and retaining persons with disabilities along with specific recommendations on integrating them into the workplace. It covers four legal perspectives and provides employers and those lawyers who represent employers with a comprehensive understanding of the basic legal obligations to job applicants and employees who have disabilities and a disability diversity blueprint that employers may adapt to implement disability diversity programs.

Disability and Equity at Work Jody Heymann, Michael Ashley Stein, Gonzalo Moreno, 2013-12-13 Hundreds of millions of people with disabilities around the world are out of work or underemployed. Disability and Equity at Work is the first book to document what can be done to improve the employment situation of people with disabilities globally from attaining their first job through career advancement. Increasing employment rates makes economic sense. Estimates put the forgone income of having people with disabilities outside the labor market at 5.7% of a country's GDP.

Disability Discrimination in the Workplace Gary E. Phelan, Janet Bond Arterton, 1992 Claiming Disability Discrimination Laura William, Susan Corby, Birgit Pauksztat, 2025-01-27 Research shows that when accessing and retaining work and when seeking promotion, disabled people often face discrimination and disadvantage that can be unlawful. Obtaining a remedy is no easy matter as although access to justice and a fair public hearing are key human rights, disabled

claimants often face barriers in Employment Tribunals Using a unique and bespoke dataset this book examines the factors that determine the outcome of these cases in British Employment Tribunals These factors include the impact of case and claimant characteristics the effect of public sector employment what happens to disability discrimination claims when they contain claims for other types of discrimination such as race discrimination and the distinctiveness of a claim for a failure to make a reasonable adjustment The book concludes by proposing reforms to the legal system government policy and wider social change along with suggestions for future research It will be of great interest to scholars and students of disability discrimination as well as the broader fields of employment relations EDI HRM and labour studies A Guide to Federal Sector Disability Discrimination Law and Practice Ernest C. Hadley,2000 **Disablism** Paul Miller,Sophia Parker,Sarah Gillinson,2004 The disability lobby has successfully pushed for discrimination to be outlawed but institutional disablism will not be stamped out without a political commitment to changing public attitudes according to a new report from Demos called Disablism Another part of the Disability Discrimination Act relating to employment comes into force in October 2004 but as the Demos report shows disabled people suffer much more extreme forms of discrimination and oppression in all parts of their lives Legislation is only a start and compared to other equality agendas disability is behind the game There is a long way to go before equality is achieved say the authors of the report Paul Miller Sophia Parker and Sarah Gillinson While the legislation is on a par with that for race or gender equality the lived experience of disabled people is still extremely poor because of disablism The report argues for collaboration between disabled people and non disabled people In fact the project itself came out of a unique partnership between Scope the disability charity and Disability Awareness in Action DAA which campaigns for disabled people s rights The report will be launched on Wednesday 26 May 2004 as part of Scope s new Time to Get Equal campaign In a joint foreword by Tony Manwaring chief executive of Scope and Rachel Hurst director of DAA they acknowledge that neither the large disability charities nor rights based campaigners acting alone will be able to eradicate disablism from society On its own the disability rights movement is unlikely to achieve the scale of change that is required to achieve a step change in the lives of disabled people in this country they write Such a step change will require a fundamental shift in attitudes and culture in British society underpinned by law rooted in the human and civil rights of disabled people The absence of disabled people in the workplace is one area where institutional disablism is most apparent Less than half of all disabled people of working age 49% are in work compared to 81% of non disabled people The Demos report argues that only once disabled people are properly represented in employment will society adapt to the needs and aspirations of individual disabled people Many more disabled people who want to work would be able to work with changes in employment practices and a proactive but not expensive approach to adaptations within the workplace says the report Disability, Discrimination, and Equal Opportunities Brian John Doyle,1995 Examines the role of the law in combatting disability discrimination in the labour market and in promoting the employment rights of disabled workers Pocket Guide
