Breakthrough Community Change Paul Born,2023-04-11 Discover a powerful methodology for bringing communities together to uncover hidden assets and transform deep rooted challenges Veteran community organizer Paul Born s work has contributed to lowering cancer rates in Maine improving mental health for young people in Florida and reducing poverty rates in Canada by 20 percent In this much needed new book he shares stories of how he was able to catalyze local communities and guide them to make significant progress on seemingly intractable community problems Born has found that the secret to success is to organize and unite around a common agenda This is not a list of topics like a meeting agenda nor a strategic plan He offers a process for bringing leaders from businesses human service organizations and governments together with people who have a lived experience of a specific community problem A common agenda is a statement of shared aspirations a map of the assets in the community and a road map for how to work together to make those aspirations a reality Part I of this book describes how to identify your community s readiness for change form leadership action and strategy teams create a common agenda and establish plans for community engagement Part II presents the approaches and skill sets needed to do the work described in part I Remarkably enormous systemic problems such as climate change poverty disease racism housing and many more issues can be best addressed at the local level Communities can develop solutions tailored to their unique circumstances and can collaborate at a magnitude that can result in a truly transformative impact This book shows how to make change happen Start to Scale Verne Harnish,2025-11-10 Proven tools and strategies to achieve sustainable growth Leaders across industries have used the techniques provided in this book to start and scale businesses from day one through a 1 billion valuation and these success stories are just the beginning of what you ll learn Written by Verne Harnish founder of the Entrepreneurs Organization and Global Scaleup Fellow in The Entrepreneurship Center at Harvard TECH this book distills four decades of experience honed through an executive program he founded with MIT and still teaches today Start to Scale focuses on four critical decisions every company must get right People Attract and retain A players organized in a team of teams structure Strategy Create a customer focused plan that crushes the competition Execution Master what it takes to get relentless repeatability key to the brand Cash Supercharge your cash flow to fuel long term growth You ll also gain access to a set of one page tools including the One Page Strategic Plan OPSP to align your organization initiate effective meeting rhythms to drive accountability and establish practical ways to gather and act on customer and employee intel Whether you re launching a startup or scaling an established company Start to Scale provides the roadmap Uncle Tom's Classroom Thomas Alan Berg,2007-07-11 Throw off your chains set yourself free Remember the Quantum Field Master you were born to be Excerpt from A Wake Up Call to the Kids of the World Thomas Alan Berg Government defined me as a citizen who must fit in and follow the rules Religion defined me as a sinner who must

repent and suffer to gain grace Darwin defined me as a lump of human flesh that evolved from the apes Capitalism defined me as a laborer customer and or consumer But it wasn't until I studied Thomas Alan Bergs teachings that I realized beyond the war between creationism and evolution there is a luminous middle ground where the old millennial paradigms are transformed and integrated into a fresh new vision the liberating Curriculum of the Cosmic Super Self UTC offers hope for a future free from terrorized enslavement by suggesting that the next quantum leap for the American Dream is a spiritual awakening from the failed hard work money success paradigm Capitalism without compassion and caring lets too many people slip through the cracks This opus argues convincingly that we must rise above the old systems of thought to become a race of Cosmic Super Beings Masters of the Quantum Field of Infinite Possibility Frank Henshaw Grass Valley CA

Still Life with Rhetoric Laurie E. Gries,2015-03-05 In Still Life with Rhetoric Laurie Gries forges connections among new materialism actor network theory and rhetoric to explore how images become rhetorically active in a digitally networked global environment Rather than study how an already materialized visual text functions within a specific context Gries investigates how images often circulate and transform across media genre and location at viral rates A four part case study of Shepard Fairey's now iconic Obama Hope image elucidates how images reassemble collective life as they actualize in different versions enter into various relations and spark a firework of activity across the globe While intent on tracking the rhetorical life of a single multiple image Still Life with Rhetoric is most concerned with studying rhetoric in motion To account for an image's widespread circulation and emergent activities Gries introduces iconographic tracking a digital research method for tracing an image's divergent rhetorical becomings Yet Gries also articulates a dynamic set of theoretical principles for studying rhetoric as a distributed generative and unforeseeable event that is applicable beyond the study of visual rhetoric With an

eye toward futurity the strands of time beyond a thing's initial moment of production and delivery Still Life with Rhetoric intends to be taken up by those interested in visual rhetoric research methods and theory **Settling and Unsettling**
