**Encyclopedia of the Lewis and Clark Expedition** Elin Woodger, Brandon Toropov, 2014-05-14 Provides facts and information about the travels of Meriwether Lewis and William Clark and their Corps of Discovery and its importance in relation to Native Americans and the westward expansion in the United States

**Weapons of the Lewis and Clark Expedition** James B. Garry, 2012-09-28 When Meriwether Lewis began shopping for supplies and firearms to take on the Corps of Discovery's journey west his first stop was a federal arsenal For the following twenty nine months from the time the Lewis and Clark expedition left Camp Dubois with a cannon salute in 1804 until it announced its return from the West Coast to St Louis with a volley in 1806 weapons were a crucial component of the participants tool kit In *Weapons of the Lewis and Clark Expedition* historian Jim Garry describes the arms and ammunition the expedition carried and the use and care those weapons received The Corps of Discovery's purposes were to explore the Missouri and Columbia river basins to make scientific observations and to contact the tribes along the way for both science and diplomacy Throughout the trek the travelers used their guns to procure food they could consume around 350 pounds of meat a day and to protect themselves from dangerous animals Firearms were also invaluable in encounters with Indian groups as guns were one of the most sought after trade items in the West As Garry notes the explorers willingness to demonstrate their weapons firepower probably kept meetings with some tribes from becoming violent The mix of arms carried by the expedition extended beyond rifles and muskets to include pistols knives espontoons a cannon and blunderbusses Each chapter focuses on one of the major types of weapons and weaves accounts from the expedition journals with the author's knowledge gained from field testing the muskets and rifles he describes Appendices tally the weapons carried and explain how the expedition's flintlocks worked *Weapons of the Lewis and Clark Expedition* integrates original research with a lively narrative This encyclopedic reference will be invaluable to historians and weaponry aficionados

what they aimed to possess their interactions with animals Indians and each other their sense of themselves as leaders and men and why they feared that they had failed their nation and President Slaughter's Lewis and Clark are more confused frightened courageous and flawed than in previous accounts They are more human their expedition more dramatic and thus their story is more revealing about our own relationships to history and myth **Lewis and Clark** Vernon
