and extraordinary animals such as the Yangtze River Dolphin the world's rarest cetacean the Bumblebee Bat the smallest mammal on earth and the egg laying Long beaked Echidna Organised by world regions Eurasia Australasia Africa New World South East Asia the Oceans and with a whole section devoted to Madagascar 100 Animals is inspirational and packed with information about each animal and where to find it Each animal is illustrated in colour and accompanied by a distribution map and information about its key characteristics and the specific threats it faces plus details about any conservation work taking place
