C. S. Lewis, 2017-04-18 With his trademark warmth and wit Lewis offers invaluable insight and intellectual delight for readers Includes An Experiment in Criticism The Allegory of Love The Discarded Image Studies in Words Image and Imagination Studies in Medieval and Renaissance Literature Selected Literary Essays The Personal Heresy *The Neglected C. S. Lewis* Mark Neal, Jerry Root, 2020-06-18 Readers who can quote word for word from C S Lewis s theological classic Mere Christianity or his science fiction novel Perelandra have often never read his work as a professional literary historian They may not even recognize some of the neglected works discussed here Mark Neal and Jerry Root have done students of Lewis a great service tracing the signature ideas in Lewis s works of literary criticism and showing their relevance to Lewis s more familiar books Their thorough research and lucid prose will be welcome to all who would like to understand Lewis more fully but who feel daunted by books of such evident scholarly erudition For example when you read The Discarded Image on the ancients view of the heavens you understand better why Ransom has such unpleasant sensations when first descending toward Malacandra in Out of the Silent Planet And when you come across Lewis s discussion in OHEL of a minor sixteenth century poet who described the hellish River Styx as a puddle glum you can t help but chuckle at the name when you meet the famous Marshwiggle in The Silver Chair These are just two examples of how reading the Neglected Lewis can help every reader understand Lewis more fully

The Surprising Imagination of C. S. Lewis Jerry Root, Mark Neal, Root, 2015-09-01 Narnia Perelandra places of wonder and longing The White Witch Screwtape personifications of evil Aslan a portrait of the divine Like Turkish Delight some of C S Lewis s writing surprises and whets our appetite for more But some of his works bite and nip at our heels What enabled C S Lewis to create such vivid characters and compelling plots Perhaps it was simply that C S Lewis had an unsurpassed imagination Or perhaps he had a knack for finding

the right metaphor or analogy that awakened readers imaginations in new ways But whatever his gifts no one can deny that C S Lewis had a remarkable career producing many books in eighteen different literary genres including apologetics autobiography educational philosophy fairy stories science fiction and literary criticism And while he had and still has critics Lewis works continue to find devoted readers The purpose of this book is to introduce C S Lewis through the prism of imagination For Lewis imagination is both a means and an end And because he used his own imagination well and often he is a practiced guide for those of us who desire to reach beyond our grasp Each chapter highlights Lewis s major works and then shows how Lewis uses imagination to captivate readers While many have read books by C S Lewis not many readers understand his power to give new slants on the things we think we know More than a genius Lewis disciplined his imagination harnessing its creativity in service of helping others believe more deeply Truly fresh rhetorically astute works about C S Lewis are rare but this provocative new volume by Jerry Root and Mark Neal emerges at just the right time to reinvigorate Lewis scholarship beyond the clichés we continue to repeat to each other The Surprising Imagination of C S Lewis delivers just that salvo an ingenious empathetic lavishly informed elucidation of Lewis s understanding of the life of the imagination Bruce L Edwards Professor Emeritus of English and Africana Studies Bowling Green State University Bowling Green OH Our grasp of imagination is such a pale and paltry thing Neal and Root offer a much needed corrective by illustrating Lewis s robust use of the word The happy result is a more accurate and nuanced reading of Lewis But there is more through their careful work we are graced with a rich new vocabulary to discern and describe the many uses of creative imagination all around us Diana Pavlac Glyer Professor of English at Azusa Pacific University Azusa CA author of The Company They Keep C S Lewis and J R R Tolkien as Writers in Community This fabulous book on Lewis s imagination will delight readers new to Lewis and those who like the authors have been reading him for decades It shimmers with the joy of exploration and discovery The Surprising Imagination of C S Lewis is a reliable and inspiring guide not only to Lewis but to a treasure trove of imaginative books that fired Lewis s own imagination In Robert Frost s delightful phrase this book is the occasion for a fresh think Wayne Martindale Emeritus Professor of English Wheaton College Wheaton IL Jerry Root and Mark Neal make excellent use of Lewis s literary criticism of other authors to show how he employed different varieties of imagination in his own works The result is a good book about Lewis and an even better one on the capacity of imagination to enrich each of our lives every day Mark Noll Francis A McAnaney Professor of History University of Notre Dame Notre Dame IN For nearly four decades I have been reading books and articles in the field of Lewis studies This volume is one of the most original and fascinating books on Lewis to appear in a long time Lyle W Dorsett Billy Graham Professor of Evangelism Beeson Divinity School Samford University Birmingham AL

Recovering the Discarded Image James Alvin Hazlerig, 1992 C S Lewis writings fall into three categories fiction Christian philosophy and medievalist scholarship Many critics have examined C S Lewis fiction for correlations to his Christian philosophy yet few have discussed his fiction as the work of a medievalist This thesis will attempt

to fill that gap by examining Lewis use of medieval concepts of order in his Chronicles of Narnia and Space Trilogy In his non fiction work The Discarded Image Lewis describes in some detail the medieval model of the cosmos Lewis carries over certain important ideas of that ordered model concepts concerning the nature of God angels planets and outer space to the cosmos of the Space Trilogy and that of Narnia Furthermore Lewis worlds display a medieval propensity for order both Narnia and the neo medieval cosmos of the Space Trilogy have their own hierarchies similar to the Great Chain of Being and in Narnia numerology serves to organize experience
