**The Urge** Carl Erik Fisher, 2022-01-25 Named a Best Book of the Year by *The New Yorker* and *The Boston Globe* An authoritative illuminating and deeply humane history of addiction a phenomenon that remains baffling and deeply misunderstood despite having touched countless lives by an addiction psychiatrist striving to understand his own family and himself Carl Erik Fisher's *The Urge* is the best written and most incisive book I've read on the history of addiction In the midst of an overdose crisis that grows worse by the hour and has vexed America for centuries Fisher has given us the best prescription of all understanding He seamlessly blends a gripping historical narrative with memoir that doesn't self aggrandize the result is a full throated argument against blaming people with substance use disorder *The Urge* is a propulsive tour de force that is as healing as it is enjoyable to read Beth Macy author of *Dopesick* As a psychiatrist in training fresh from medical school Carl Erik Fisher found himself face to face with an addiction crisis that nearly cost him everything Desperate to make sense of his condition he turned to the history of addiction learning that our society's current quagmire is only part of a centuries old struggle to treat addictive behavior A rich sweeping account that probes not only medicine and science but also literature religion philosophy and public policy *The Urge* introduces us to those who have endeavored to address addiction through the ages and examines the treatments that have produced relief for many people the author included Only by reckoning with our history of addiction Fisher argues can

we light the way forward for those whose lives remain threatened by its hold The Urge is at once an eye opening history of ideas a riveting personal story of addiction and recovery and a clinician s urgent call for a more nuanced and compassionate view of one of society s most intractable challenges Addicted to Rehab Allison McKim,2017-07-03 After decades of the American war on drugs and relentless prison expansion political officials are finally challenging mass incarceration Many point to an apparently promising solution to reduce the prison population addiction treatment In Addicted to Rehab Bard College sociologist Allison McKim gives an in depth and innovative ethnographic account of two such rehab programs for women one located in the criminal justice system and one located in the private healthcare system two very different ways of defining and treating addiction McKim s book shows how addiction rehab reflects the race class and gender politics of the punitive turn As a result addiction has become a racialized category that has reorganized the link between punishment and welfare provision While reformers hope that treatment will offer an alternative to punishment and help women McKim argues that the framework of addiction further stigmatizes criminalized women and undermines our capacity to challenge gendered subordination Her study ultimately reveals a two tiered system bifurcated by race and class Addiction Becomes Normal Jaeyoon Park,2024-04-05 Over the last forty years a variety of developments in American science politics and culture have reimagined addiction in their own ways and yet they share something in common Increasingly addiction is understood as deeply normal resembling our most ordinary attachments On this view a potential for addiction or even a drive to addiction is latent in all of us and a natural response to what now so often surrounds us namely an ample and sure supply of potent thrills and pleasures This book documents where and how this view has taken hold in society and considers what its rise and wide circulation can reveal about how we imagine the human subject in the late modern United States Just as addiction has been reimagined as extreme yet ordinary attachment and the addict as a suffering yet normally constituted subject so too has the human as such become reimagined in striking and significant ways Jaeyoon Park argues that studying addiction s normalization promises not only to expand our knowledge of the recent history of thought about addiction but to reveal and reflect what may well be an increasingly common even commonsensical understanding of the human subject in our time as constructed by accretion *Poisons of Civilization, Remnants of Capitalism, or Jewish Disease?
