Disciplining Terror How Experts Invented Terrorism:

Disciplining Terror Lisa Stampnitzky, 2013-04-18 Since 9 11 we have been told that terrorists are pathological evildoers beyond our comprehension Before the 1970s however hijackings assassinations and other acts we now call terrorism were considered the work of rational strategic actors *Disciplining Terror* examines how political violence became terrorism and how this transformation ultimately led to the current war on terror Drawing upon archival research and interviews with terrorism experts Lisa Stampnitzky traces the political and academic struggles through which experts made terrorism and terrorism made experts She argues that the expert discourse on terrorism operates at the boundary itself increasingly contested between science and politics and between academic expertise and the state Despite terrorism now being central to contemporary political discourse there have been few empirical studies of terrorism experts This book investigates how the concept of terrorism has been developed and used over recent decades

Theories of Terrorism Daniela Pisoïu, Sandra Hain, 2017-09-28 This new textbook provides students with a multidisciplinary theoretical and methodological introduction to terrorism studies The book identifies the main theories proposed in the field of terrorism studies as they relate to several issues why and how individuals and organizations get involved in terrorism the definition and concept of terrorism state terrorism leaving terrorism behind counter terrorism manifestations of terrorism in time and space Terrorism studies is a highly heterogeneous field with a broad range of theories and disciplines marked by ample debates Beyond individual contributions and unique perspectives however it is difficult for students and interested readers to have a broader and structured grasp of the theoretical landscape within and behind the study of terrorism This textbook offers a valuable new teaching tool which aims to provide students with the conceptual theoretical and methodological toolbox necessary to understand and research terrorism This book will be essential reading for students of terrorism studies political violence and counter terrorism and is highly recommended for students of security studies criminology politics and international relations

Can Muslims Think? Muneeb Hafiz, 2022-06-14 As Europe goes astray deeply conflicted about where it is within and with the world it does not know what it wants to know about or do with the racial subject In this situation the Muslim becomes an intense source of anxiety one that is at once terrifying and called to answer for Europe's existential fear of relegation Islamophobia thus represents both the racism constitutive of European modernity and is also symptomatic of contemporary transformations in racist power knowledge and governance propelled by technologies and economies of endless wars on terror But how might the Muslim speak about the world its past and unfolding terrors Which questions must she answer and which answers does Europe deem acceptable Presenting a speculative theory of the post racial subject of Islamophobia *Can Muslims Think* is an attempt to build a vocabulary for analyzing the complexities of racism today its potential futurity and techniques for its dismantling

L'espace humanitaire, peau de chagrin dans le conflit au Sahel Camille Haye, 2023-03-01 Le 9 ao t 2020 six humanitaires fran ais leur chauffeur nig rien et leur accompagnateur ont t tu s dans la r serve de Kour au Niger Cet v nement choquant conduit s interroger sur la place

que tiennent les travailleurs humanitaires dans le conflit sahélien qui s'est vu depuis plus de dix ans dans la région. Quels sont les dilemmes et les ambiguïtés auxquels sont confrontés les ONG dans les États dits fragiles. Dans les guerres contre le terrorisme. Comment apporter aux populations victimes du conflit l'aide dont elles ont besoin. Cette aide doit-elle être simplement palliative ou doit-elle contribuer à traiter les causes des souffrances subies. Cet ouvrage étudie l'évolution du mandat des ONG et les attentes formulées leur gard. Il explore les rapports transactionnels entre les travailleurs humanitaires et les autorités politiques et met ainsi en lumière les compromis auxquels ces acteurs se résignent. Il s'agit de repenser ce que signifie aujourd'hui le déploiement d'une aide selon les principes d'humanité, de neutralité, d'impartialité et d'indépendance, ce que signifie la préservation d'un espace humanitaire dans le conflit au Sahel. *Terrorism Today* Clifford E. Simonsen, Jeremy R.

Spindlove, 2004. For Terrorism courses in Law Enforcement, Criminal Justice, Criminology, Justice Administration, Security, Sociology or Political Science. Exploring a subject largely ignored by academic writers, this introductory text uncovers terrorist activities in the United States and around the world, drawing from the authors' blend of academic and professional experiences. Its accessible, concise writing, relevant current data, vivid photos, and comprehensive scope provide an effective overview of the many sectors and operations that comprise the broad term of terrorism. **The History of Western**

Bidragydere Bruce Hoffman, Andrew Silke, John Horgan, Gavin Cameron, Leonard Weinberg, William Eubank, Avishag Gordon, Walter Enders, Todd Sandler, Louise Richardson, Frederick Schulze, Gaetano Joe Ilardi. *The Dynamics of Terror* Hughbank, 2011. Pathologic leaders are capable of using their power, mind, manipulation skills, and unchecked authority to manipulate and annihilate others, their own people, and themselves, as the Nazi Führer Adolf Hitler, the messianic reverend James Jones, or Osama bin Laden, the leader of the al Qaeda social movement, have reminded us. But what about the regular guys? Can a person who in principle is like you and me become an agent of terror? In the rise of the media age, it is easy to forget that humankind has been subject to the darkness of terrorism for centuries. In a world scarred by tragedies in locations as divergent as Oklahoma City, Blacksburg, London, Madrid, and New York, finding a way to combat terrorism and acts of terror in our own time is of paramount concern. Yet how do a community, a culture, and a world come to understand how terrorists develop? How do we come to terms with the idea that most terrorists and individuals who commit acts of terror are products of the cultures that we live in, rational actors who operate among us at times undetected until their actions come to their deadly end? *The Dynamics of Terror* is a series of essays from a group of expert psychologists, sociologists, and military terror experts. By examining the differences between the individuals who engage in terrorist activities, the authors have composed a unified theory of terrorists. These engaging essays will shed light into the

minds of terrorists and provide new ways to identify potential aggressors before tragedy occurs
