

Sun, Earth, Moon System

The Sun

The Sun is a star, called a main sequence star. It is a glowing ball of gas called plasma, held together by gravity. The Sun's energy is produced by nuclear fusion in its core.

The Earth's Moon

The Moon is a rocky, airless sphere. It is the only celestial body in the sky other than the Sun to be visible to the naked eye.

Phases of the Moon

The Moon orbits the Earth, and as it orbits, it shows different phases. The phases are determined by the relative positions of the Sun, Earth, and Moon.

When the portion of the Moon that is lit is visible from Earth, it is called a waxing phase. When the portion is not visible, it is called a waning phase.

Earth's Seasons

The Earth's seasons are caused by the tilt of the Earth's axis. As the Earth orbits the Sun, the tilt causes different parts of the Earth to receive different amounts of sunlight.

OUR SOLAR SYSTEM

Earth - Inside & Out

The Earth is made up of three main layers: the crust, the mantle, and the core.

Earth's surface has many shapes and features. Mountains are landforms that rise above the surrounding land.

Changing Earth's Surface

- Weathering - physical & chemical
- Erosion
- Deposition
- Landforms
- Volcanoes
- Earthquakes

The movement of land that has been weathered is called erosion. Erosion is caused by water, wind, gravity, and glaciers. Deposition is the laying down of pieces of Earth's surface. Over time, these landforms can be changed by erosion and deposition.

Some things that occur to nature, such as earthquakes, volcanoes, and tsunamis, are called natural disasters.

Earthquakes also cause rapid changes to the Earth's surface. An earthquake is a sudden shift in the Earth's crust that causes the ground to shake and release energy.

A tsunami is a series of waves that travel through the Earth's ocean as the result of an earthquake.

Formation of Our Solar System

Solar systems begin in interstellar clouds of dust and gas. The dust is composed of tiny particles of dust and gas. The gas clouds are called nebulae.
