## English Regents 2013 Answer Key Guide:

*Assessing English Language Learners: Bridges to Educational Equity* Margo Gottlieb, 2016-03-22 Build the bridges for English language learners to reach success Ten years ago the first edition of Margo Gottlieb's *Assessing English Language Learners* changed the dialogue about how educators envision educational equity for students Since then the ELL and dual language student populations have grown exponentially and so has the need for forward thinking and effective approaches to facilitating students' academic language development alongside their content knowledge This thoroughly updated edition of Gottlieb's classic delivers a complete set of tools, techniques, and ideas for planning and implementing instructional assessment The book includes:

- A focus on academic language use in every discipline from mathematics to social studies within and across language domains
- Emphasis on linguistically and culturally responsive assessment as a key driver for measuring academic achievement
- A reconceptualization of assessment as for and of learning
- Reflection questions to stimulate discussion around assessment policies and practices to maximize opportunities for teacher input and student engagement

This book is an essential resource for pre-service and in-service teachers, educator teams, and school leaders striving toward equity in every classroom In this exciting practitioner-friendly volume Margo Gottlieb shows us how assessment as for and of learning can provide a level playing field for today's language learners Educators working with English language learners will find this assessment 'moxie' book truly invaluable

W. James Popham, Professor Emeritus, University of California, Los Angeles

There are no other books available that cover the topic of fair and equitable assessment practices for English learners as comprehensively as this one Nor are there any other books with such a rich selection of tools readily available for practitioners It must belong in every TESOL professional's library

*Discipline Problems* Tadashi Dozono, 2024-05-07

Angel, a Black tenth grader at a New York City public school, self-identifies as a nerd and likes to learn But she's troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas, presenting a sugar-coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler, she says The world I live in is a lot more complex

Angel, like every student interviewed in *Discipline Problems*, has been identified by teachers as a troublemaker—a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she's taught speak to her curiosity and insight, crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools, she exposes the shortcomings of her classrooms' academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking, and the students are disciplined for acting out instead of being rewarded for their intellectual engagement

Tadashi Dozono, a professor of education and former high school social studies teacher, takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history

curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners El-Hi Textbooks and Serials in Print, 1996 R R Bowker Publishing, Bowker, 1996-02
