Cole,2014-06-05 In Constructing Twenty First Century Socialism The Role of Radical Education Motta and Cole explore the role of the politics of knowledge and pedagogy in the reinvention of socialism for the twenty first century Through a critical analysis of Brazil Colombia and Venezuela they deconstruct the mechanisms of neoliberal control as an epistemological project of monologue closure and violence against all others The authors develop an affirmative engagement with the traditions practices and politics which seek to challenge this closure through the policies of the counter hegemonic government of Venezuela the struggles of social movements in Brazil and Colombia and the daily resistance of critical educators working in formal educational settings in all three countries This mapping and analysis not only contribute to struggles for alternatives to capitalism in Latin America but are translatable to other contexts The book theorizes that with the exhaustion of neoliberalism it is time to pedagogize the political and politicize the pedagogical in order to create worlds beyond capitalism
