higher education administered annually to over 3.3 million candidates then The Equating Project won recognition by Charles Alderson and other foreign counterparts during 1990s. Academically those were Good Old Days for Chinese testing experts and psychometricians. Then for certain reasons the equating practice abruptly discontinued. Therefore in China nowadays the application of IRT based software like BILOG Parscale Iteman 4 and others to real testing problem solving is confined to an extremely small band of people. In this sense PROMS2012 meets an important need in that it provides an excellent introduction of IRT and its application. And anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of Rasch Model. PROMS2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using Rasch measurement and non Rasch practice.

Context-Informed Perspectives of Child Risk and Protection in Israel Dorit Roer-Strier, Yochay Nadan, 2020-07-24 This volume adopts a context informed framework exploring risk maltreatment well being and protection of children in diverse groups in Israel.
