Immigration and Categorical Inequality Ernesto Castañeda, 2017-09-13 Immigration and Categorical Inequality explains the general processes of migration the categorization of newcomers in urban areas as racial or ethnic others and the mechanisms that perpetuate inequality among groups Inspired by the pioneering work of Charles Tilly on chain migration transnational communities trust networks and categorical inequality renowned migration scholars apply Tilly s theoretical concepts using empirical data gathered in different historical periods and geographical areas ranging from New York to Tokyo and from Barcelona to Nepal The contributors of this volume demonstrate the ways in which social boundary mechanisms produce relational processes of durable categorical inequality This understanding is an important step to stop treating differences between certain groups as natural and unchangeable This volume will be valuable for scholars students and the public in general interested in understanding the periodic rise of nativism in the United States and elsewhere

foreigners in over 300 thousand Chinese have arrived in Japan as students Student migrants are the most visible controversial and active Chinese immigrants in Japan The majority of them enter Japan's labour market and many have stayed on indefinitely Based on the author's original fieldwork data and government statistics this book gives a comprehensive portrayal of an often neglected group of international migrants in a society that for decades has been considered a non immigrant country It introduces Chinese students diverse mobility trajectories analyses their career patterns describes their transnational living arrangements and explores the mechanisms that give rise to their identity as new overseas Chinese This book contributes to our understanding of international migration and international education in an age of globalization It points out that student migrants are key to the internationalization of Japanese society and potentially in other countries where immigration is still considered a challenging reality This book will be of interest to students and scholars of Chinese Studies Japanese Studies Sociology and Labour Studies The Director-general's Programme and Budget Proposals for 2010-11 International Labour Office. Governing Body. Programme, Financial, and Administrative Committee, 2009 Analyzing the investment effects of forest rights devolution in Nepal's community-managed forest enterprises Adhikary, A., Jhaveri, N., Karki, R., Paudel, N.S., 2019-11-22 Forest rights devolution in Nepal from the late 1980s created different types of community based forest management institutions in particular community forestry user groups Effective forest regeneration led to a new focus on entrepreneurial opportunities for improving livelihoods and social equity resulting in considerable if unstable enterprise growth Employing the concept of enabling and asset investments the study examines how user groups have established and managed forest based enterprises taking account of regulatory and non regulatory factors. The study is based on primary data from interviews with 12 community managed forest enterprises as well as secondary data from the published government and grey literature In light of the high export demand for non timber forest products from India and elsewhere there has been gradual policy support for enterprise development from the government Enabling investments by the government donors and non governmental organizations have built momentum and contributed to success Forest based enterprises have the potential to change the face of Nepal's rural economy However complex and poorly harmonized regulatory requirements have kept many community managed forest enterprises in a state of informality and unable to attract asset investment An emerging second generation of community managed forest enterprises can benefit from reductions in regulatory burdens and attract asset investments capable of overcoming current obstacles to growth

The Handbook of Contemporary Cambodia Katherine Brickell, Simon Springer, 2016-09-13 Offering a comprehensive overview of the current situation in the country The Handbook of Contemporary Cambodia provides a broad coverage of social cultural political and economic development within both rural and urban contexts during the last decade A detailed introduction places Cambodia within its global and regional frame and the handbook is then divided into five thematic sections Political and Economic Tensions Rural Developments Urban

Conflicts Social Processes Cultural Currents The first section looks at the major political implications and tensions that have occurred in Cambodia as well as the changing parameters of its economic profile The handbook then highlights the major developments that are unfolding within the rural sphere before moving on to consider how cities in Cambodia and particularly Phnom Penh have become primary sites of change The fourth section covers the major processes that have shaped social understandings of the country and how Cambodians have come to understand themselves in relation to each other and the outside world Section five analyses the cultural dimensions of Cambodia's current experience and how identity comes into contact with and responds to other cultural themes Bringing together a team of leading scholars on Cambodia the handbook presents an understanding of how sociocultural and political economic processes in the country have evolved It is a cutting edge and interdisciplinary resource for scholars and students of Southeast Asian Studies as well as policymakers sociologists and political scientists with an interest in contemporary Cambodia International Labour Migration International Labour Office, 2010 There are almost 200 million migrants in the world today The majority of people leaving their home countries are migrating for work and almost half of them are women The contribution of these workers is evident yet many work in unacceptable conditions denied access to social protection and their labour rights With its mandate on all labour issues the ILO has built up a wealth of knowledge on migration for employment in terms of both original research and the rich experience of its Members governments employers and trade unions in dealing with migrant workers Drawing on these unique resources this book offers a comprehensive and accessible overview of international labour migration and the ILO s efforts to protect migrant workers through a rights based approach This book gives new insights into the factors that motivate people to seek work outside their country of origin and the significant development effects on both origin and destination countries Exposing the often limited access of migrant workers to their fundamental rights at work the book describes in detail the international norms that have evolved to protect migrant workers and ensure decent work for all It reflects on existing and potential international governance structures and addresses linkages between migration and development The book reviews the ILO s Multilateral Framework on Labour Migration and discusses its role in improving policy making and upgrading international cooperation in the area of labour migration Book jacket Remittance-led Development: Rebuilding Old Dependencies Or a Powerful Source of Human Development? Jörg Helmke, 2010

Programme and Budget Proposals for ... International Labour Office, 2009 Governing International Labour Migration Christina Gabriel, Hélène Pellerin, 2008 This book offers a critical examination of the way in which the nature and governance of international labour migration is changing within a globalizing environment It examines how labour mobility and the governance of labour migration are changing by exploring the links between political economy and differentiated forms of labour migration Additionally it considers the effects of new social models of inclusion and exclusion on labour migration Therefore the book troubles the conventional dichotomies and categorizations permanent vs temporary skilled vs unskilled

Sociological Abstracts Leo P. Chall, 2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters The British National Bibliography dissertations and conference papers Guide to Indian Periodical Literature ,2008 Arthur James Wells, 2009 Global Economic Prospects 2006 World Bank, 2005 International migration the movement of people across international boundaries to improve economic opportunity has enormous implications for growth and welfare in both origin and destination countries An important benefit to developing countries is the receipt of remittances or transfers from income earned by overseas emigrants Official data show that development countries remittance receipts totaled 160 billion in 2004 more than twice the size of official aid This year s edition of Global Economic Prospects focuses on remittances and migration The bulk of the book covers remittances including their size determinants development impact and steps to strengthen financial infrastructure and reduce transaction costs It also presents available data on migration flows and examines current thinking on issues pertaining to migration and its development impact Reducing the Impact of Poverty on Health and Human Development Stephen G. Kaler, Owen M. Rennert, 2008-07-08 This work examines the many ways in which poverty contributes to ill health among the poor and to impeded development among poor children The volume is a response to a request by the Council of Science Editors that journals all over the world publish an issue in October 2007 addressing the theme of poverty and human development Impact of Remittances on Poverty and Financial Development in Sub-Saharan Africa Sanjeev Gupta, Smita Wagh, Catherine A. Pattillo, 2007-02 This paper assesses the impact of the steadily growing remittance flows to sub Saharan Africa SSA Though the region receives only a small portion of the total recorded remittances to developing countries and the volume of aid flows to SSA swamps remittances this paper finds that remittances

which are a stable private transfer have a direct poverty mitigating effect and promote financial development These findings hold even after factoring in the reverse causality between remittances poverty and financial development The paper posits that formalizing such flows can serve as an effective access point for unbanked individuals and households and that the effective use of such flows can mitigate the costs of skilled out migration in SSA
