*Finding the Movement* Anne Enke, 2007-11-07 An analysis of the role public spaces parks clubs book stores played in shaping the feminist movement in three Midwestern cities during the 1960s and 1970s     *The Political Life of Bella Abzug, 1976-1998* Alan H. Levy, 2013-12-05 The Political Life of Bella Abzug 1976 1998 is the second part of the first full biography of Bella Abzug Alan H Levy explores the political life of one of the most important women in politics in mid and late twentieth century America This second part takes up Abzug s life from the point in 1976 when she narrowly lost her bid for the New York Democratic Party s nomination for the U S Senate The biography follows her subsequent failed effort to win the Democratic Party s nomination for Mayor of New York City in 1977 her leading a controversial National Women s Convention in Houston in late 1977 her failed attempt to return to the U S Congress in 1978 and her conflicts with President Jimmy Carter and his administration The biography then traces the efforts in which Abzug was engaged to regain political prominence and her work on behalf of women at both national and international levels Through the events in Abzug s life Levy explores tensions that surrounded the contrasts between political principles which idealized a world in which gender posed no barriers to any human effort and political views which sought to extol and develop notions of gender and of ideas about its special meanings in human affairs and politics     *Photogenic Montreal* Martha Langford, Johanne Sloan, 2021-11-15 The agency of photographs is a recurrent concern within the context of the city Whether found in architectural records social documentary photojournalism or artistic practice photographic objects are embedded in urban contestation aesthetically charged by artists reinserted into social histories and mobilized to imagine a future city Photogenic Montreal takes a question initially posed by heritage debates what does photography preserve and creates a rich conversation about the agency of the human actors before and behind the camera and of the medium itself The interplay of archives and activisms structures the book Photographs that appear to be sealed off in newspapers storage rooms or archives accrue new meaning when they cross the threshold back into social spaces and circulate anew It is through the reactivation of archival photographs that submerged traces of urban experience are discovered and alternate histories of Montreal can be recounted Multiple forms of activism and artistic expression complement this archival work Beginning in the 1960s community minded and heritage groups responded to the tensions arising from urban reconstruction gentrification and the erasure of neighbourhoods this activism also left its photographic traces Attentive to the still changing face of the city s architecture neighbourhoods and street life Photogenic Montreal participates in debates about who the city belongs to who speaks on its behalf and how to picture its past and present     Everywhere and Nowhere Jo Reger, 2012-03 The women s movement and feminism has been responsible for profound changes in American society from greater access to education and jobs to increased choices in health and parenting Its ideas and goals have largely become a part of everyday beliefs and norms At the same time obituaries of the women s movement appear regularly in the news and the current movement is criticized for

being apolitical or ineffectual In this sense feminism today can be said to be at once nowhere no longer visible and everywhere diffused into the culture Through an extended case study of three communities Jo Reger explores this paradox with a systematic and empirically based look at the contemporary women s movement She investigates some of the most debated topics about and between feminists in the 21st century including the relationship of contemporary and second wave generation feminists the influence of identity politics on gender and sexuality and the stubborn legacies of racism and classism Where with all these changes is feminism today The answers she finds are myriad and specific to each community It is precisely the variations and convergences of feminist activism within particular communities Reger reveals that define the women s movement today

**The Liberal Heartland** Jon K. Lauck, Catherine McNicol Stock, 2025-04-29 Over the last two decades the political narrative of the liberal coasts and the conservative heartland has become something of a truism leading many Democrats to write off much of the Midwest as a Republican stronghold Today s polarized divide between rural and urban voters makes it easy to forget that things have not always been this way The Liberal Heartland is a powerful reminder that the American Midwest has a progressive legacy that rivals the coasts Across twenty chapters The Liberal Heartland traces the political history of this region from the post New Deal period to the rise of the New Right and Donald Trump s right wing populism The contributors explore the way liberals and progressives across the Midwest fought for expanding environmental protection engaged in community activism developed a queer labor coalition before Stonewall struggled for women s rights and representation in the Great Plains states opposed the death penalty and mobilized for Indigenous self determination among other topics In addition to well known leaders like Harry Truman and George McGovern the book highlights lesser known figures such as Lydia Cady Langer Mary Jean Collins Richard Hatcher Jim Jontz and Paul Wellstone A companion to the 2020 volume The Conservative Heartland The Liberal Heartland explores the history of the Midwest from a less acknowledged perspective recounting often forgotten stories that demonstrate the importance of the Midwest for New Deal liberalism and various forms of left wing politics This is a long overdue book that represents a fresh look at the American heartland

**Women's Antiwar Diplomacy during the Vietnam War Era** Jessica M. Frazier, 2017-02-02 In 1965 fed up with President Lyndon Johnson s refusal to make serious diplomatic efforts to end the Vietnam War a group of female American peace activists decided to take matters into their own hands by meeting with Vietnamese women to discuss how to end U S intervention While other attempts at women s international cooperation and transnational feminism have led to cultural imperialism or imposition of American ways on others Jessica M Frazier reveals an instance when American women crossed geopolitical boundaries to criticize American Cold War culture not promote it The American women Frazier studies not only solicited Vietnamese women s opinions and advice on how to end the war but

also viewed them as paragons of a new womanhood by which American women could rework their ideas of gender revolution and social justice during an era of reinvigorated feminist agitation Unlike the many histories of the Vietnam War that end with an explanation of why the memory of the war still divides U S society by focusing on linkages across national boundaries Frazier illuminates a significant moment in history when women formed effective transnational relationships on genuinely cooperative terms

**Feminist Coalitions** Stephanie Gilmore, 2008 A fresh new look at the productive partnerships forged among second wave feminists

**From Head Shops to Whole Foods** Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change

**Power in Struggle** Davina Cooper, 1995-07 Those seeking social change confront the centrality of power on a daily basis What precisely is power and how does it manifest itself And how are radical and progressive strategies shaped by the ways in which we conceptualize it Drawing on feminist poststructuralist and Marxist theory Davina Cooper develops an innovative framework for understanding power relations in forms as diverse as reproductive technology queer activism municipal politics and the regulation of lesbian reproduction Power in Struggle explores the relationship between power sexuality and the state and ultimately provides a radical re thinking of these concepts and their interactions Sexual politics Cooper posits must recognize the sexualization of everyday life and should not be exclusively the concern of a young educated elite nor should sex be shuttered as a private affair Concluding with an important and original discussion of how an ethics of empowerment can inform political strategy Power in Struggle is a must read for activists scholars and lawyers
