Eyes For Learning Preventing And Curing Vision Related Learning Problems:

Eyes for Learning Antonia Orfield, 2007-06-21 Poor vision if unnoticed and untreated can dramatically reduce a child's school achievement. While it is easy to blame underachievement on a variety of causes, the real cause may be directly related to vision development. Strong vision is much more than being able to see the blackboard from the back row. Solid visual skills that underlie brain learning are developed through a variety of activities that are less and less a part of children's lives thanks to TV and video games. Eyes for Learning explains how parents and teachers can spot a vision related learning problem and how to treat it. Dr. Antonia Orfield provides answers about referrals, required vision tests, and vision improvement techniques. The bottom line is that good vision is a learned skill that is best developed by the practices explained in this book. Understanding these explanations can go a long way in saving a child from failure in school. **The Hidden Link Between**

Vision and Learning Wendy Beth Rosen, 2016-07-05 Vision in all its complexity is more than meets the eye. The knowledge that lies between the covers of this book will define with depth and clarity what this magnificent sense actually encompasses and why it is critical to the learning process. Far beyond 20/20 vision involves more than two dozen skills that enable us to navigate through the world. There are inestimable numbers of children who are struggling with learning and compromised in ways most people are unaware of because these little known visual skills are not functioning properly. This can profoundly impact a child's success in school and in life. The symptoms of an unrecognized vision disorder can mimic other conditions for which many children may be classified or medicated. Because of this, the potential for misdiagnosing the true cause of a child's struggles is enormous. This book reveals the untold facts about the sense we rely on most and understand the least. You will come away fully informed, enriched, and equipped with answers that will shed light on why so many children are beset with stress and struggle.
