collective experience of medicine There is a growing awareness of very different cultural expectations about the nature and treatment of illness The intersection of medicine and the humanities is busy Machinery seems to crowd the space while human encounters are often brief and deeply unsatisfying to patients and caregivers alike Despite disparate approaches to the crisis in health care from economics to ethics there is agreement that patients and the world of medicine need more time together so that illness does not find expression only in the context of the emergency room It is as a response to the collective sense of crisis and alienation that *Imagine What It's Like* has been constructed Inside and outside the health care community many have called for the chance to use the humanities not only as opportunities to reflect on their own experiences but also as a means of improving the experiences of all of us whose lives will be touched by illness and healing birth and death Created by the Maine Humanities Council for its Literature and Medicine Humanities at the Heart of Health Care programs *Imagine What It's Like* contains eighty three selections ranging from poems to short stories to excerpts from longer works The selections are divided into five sections The Experience of Illness Beginnings and Endings Trauma and Recovery Coming to Terms and Healing Costs and are followed by suggestions for longer readings
