Trauma-Attachment Tangle Joan Lovett, 2014-12-05 Trauma Attachment Tangle offers informative and inspiring clinical stories of children who have complex trauma and attachment issues from experiences such as adoption hospitalization or death of a parent Some of these children display puzzling or extreme symptoms like prolonged tantrums self hatred attacking their parents or being fearful of common things like lights solid foods or clothing Dr

Lovett presents strategies for unraveling the traumatic origins of children's symptoms and gives a variety of tools for treating complex trauma and for promoting attunement and attachment *Attachment-Focused Trauma Treatment for Children and Adolescents* Niki Gomez-Perales, 2015-06-05 Attachment Focused Trauma Treatment for Children and Adolescents brings together two powerful treatment directions that exponentially expand the knowledge and skills available to child and adolescent trauma therapists. The book provides theoretical knowledge, clinical approaches, and specific detailed techniques that clinicians will find indispensable in the treatment of the most challenging and high-risk young trauma victims. Also included are case studies developed from over three decades of experience that show the reader how to use the techniques in real-life settings. The treatment approach described here is flexible enough to adapt to real clients in the real world regardless of trauma and attachment histories, family and living situations, or difficulties engaging in supportive therapeutic relationships. Clear and cohesive, the model presented here allows room for the individuality and approach of each therapist so that the therapeutic relationship can evolve in a genuine and unique way. An appendix of photocopiable worksheets gives interactive tools for therapists to immediately use with clients.

The Handbook of Complex Trauma and Dissociation in Children Ana M. Gómez, Jillian Hosey, 2025-03-31 The Handbook of Complex Trauma and Dissociation in Children: Theory, Research, and Clinical Applications is a comprehensive and truly vital text for both experienced professionals and novice clinicians alike. In these pages, dozens of experts and pioneers thoroughly cover the complex nuances of theory, assessment, research, and clinical practice. Specific sections cover etiology, neurobiology, and various theoretical and conceptual models for working with the complexities of cumulative and chronic traumatization in childhood. Additional sections cover standardized and non-standardized assessment and diagnostic tools, as well as the formulation and organization of the clinical interview with children and caregivers. Other chapters provide systematic and comprehensive reviews of current treatment modalities and effective approaches for treating children with complex trauma and dissociation across different stages of early development. The book's co-editors bookend the volume with thorough explorations of the nuanced and multifaceted issues impacting children with complex trauma and dissociative symptoms and features.
